

# EpSSG Winter Meeting

Dec. 4th-6th, 2024

Paris - FRANCE

# Winter Meeting

European Paediatric Soft Tissue Sarcoma Study Group

## WELCOME

Dear friends and colleagues,

We would like to invite you to the 2024 EpSSG Winter Meeting, which will be held in Paris December 4<sup>th</sup>-6<sup>th</sup> 2024. It's a great pleasure to welcome you all in our beautiful and friendly city. The meeting will be a great opportunity to work on future and ongoing clinical trials and projects, enjoy interaction with clinicians and scientists working in the field, engage with young investigators, interact with parents and patients' advocates, and discuss the future strategy of our association. But also, to enjoy a wonderful stay in our city. Our meeting will be held in two different venues.

On December 4<sup>th</sup>, the different subcommittees closed meetings will be held at Gustave Roussy (GR), an oncology center located in Villejuif, in the south of Paris. GR is an expert in rare and complex cancers and treats all cancers, at all stages and at all ages, with 11,000 new patients annually including 500 children and adolescents with solid tumors or lymphomas. The center activity integrates research and teaching, in close interaction with AP-HP, Institut Curie, University Paris-Saclay and its Medical School, INSERM, and CNRS (Paris Kids Cancer alliance).

On December 5<sup>th</sup> and 6<sup>th</sup>, the main meeting will take place at the Campus Les Cordeliers. The Campus des Cordeliers is a historic site located in the heart of Paris, in the 6<sup>th</sup> arrondissement, between Rue de l'École de Médecine and Boulevard Saint-Germain. Les Cordeliers is one of the emblematic places where the French Revolution was prepared. It is part of Sorbonne University and hosts several medical and biomedical research facilities. These include laboratories affiliated with INSERM and CNRS, as well as institutions like the University of Paris Cité and the Collège de France. This campus is a major hub for health-related research, renowned for innovation and advanced studies in biomedicine and health sciences.

Finally, to continue the magic of the Olympic Games in Paris, on Thursday evening Daniel and colleagues will host national team events during dinner. The prizes will be priceless and the medals magnificent.

May the best team win!

We look forward to meeting you.

Yours sincerely

Prof. Veronique Minard-Colin, Prof. Dr. Hans Merks, on behalf of EpSSG and the Organising Committee

**METRO MAP:** <https://www.ratp.fr/sites/default/files/plans-lignes/Plans-essentiels/Plan-Metro.1722015166.pdf>

Most of the metro stations do not deliver any paper metro tickets and there is a card 'Navigo Easy Pass' to buy for dematerialised metro or bus tickets to use.

## INFORMATION ON NAVIGO EASY PASS

### T+ ticket on Navigo Easy pass and telephone

You want to use contactless t + tickets, you can use your Navigo Easy pass or your phone!

IGES

Click to get  
liable

Do you want to travel on the metro, the RER in Paris, the bus or the tram? Do you want to be able to reload these tickets on a reloadable pass or on your phone?

The t + on a Navigo Easy pass or on your phone via the "Bonjour RATP" app are made for you!

Networks:    

Number of journeys : 1

Ideal for : Tourists and occasional travelers

### How does it work ?

The t + on a Navigo Easy pass allows you to travel on metro lines, RER lines (zone 1), Île-de-France bus lines (except OrlyBus and RoissyBus), Tramway lines and the Montmartre funicular.

The following matches are possible:

-  Metro / metro for 1h30 from validation (without leaving the network);
-  Metro / RER and RER / RER in Paris for 1h30 between the 1st and the last validation;
-  Bus / bus (including between the RATP and OPTILE networks) for 1h30 between the 1st and last validation;
-  Bus / tram and tram / tram for 1h30 between the 1st and the last validation.

### Where to buy it?

You can buy contactless t + to load on your Navigo Easy pass:
